FUZZY BOUNDARIES

Enric Ruiz-Geli: A Green New Deal... Cloud 9

Opening Reception 02.23.09 | 8pm-9pm

This exhibition explores the dynamic architecture and performance based work of Enric Ruiz-Geli and Cloud 9 from Barcelona. Their aim is to work with "particles" generating an architecture that becomes a "power plant", in balance with nature to reach the 3rd industrial revolution that J. Rifkin is leading. The work uses research and design projects to create added value through the use of CNC technologies that generate new patents expanding the boundaries in architecture.

Enric Ruiz-Geli will provide a lecture on Cloud 9's work on Monday, February 23 at 6:30pm in Perloff Hall, Decafe.
